Naturopathic PMS Relief

ProFemme™ - is a pure, naturopathic product containing proven, hypoallergenic extracts from specific pollen grains. This remarkable product is formulated based on over 30 years of research.

Are You Irritable Before Your Menstrual Periods?

ProFemme helps decrease the symptoms associated with normal hormonal fluctuations, chemical changes and PMS including:*

- Mood Swings
- Cramping and Bloating
- Fatigue
- Hot Flashes

Do You Suffer From Severe Cramps?

Do You Crave Junk Food At Certain Times Of The Month?

Premenstrual Syndrome (PMS) affects most women to some extent at some time during their life. The symptoms of PMS can range from mild inconveniences to severe mood swings and / or depression. Fortunately, there is ProFemme to address a women's unique need.*

What is Flower Pollen?

Flower pollen is one of the most complex whole-food structures on this planet. The ingredients found in it are the building blocks of plant life and therefore also the first link in the human food chain. Pollen's biochemistry has been researched extensively. This research has identified over 3,000 different life enhancing substances in pollen. Pollen contains every micro-nutrient needed for the human body to thrive.*

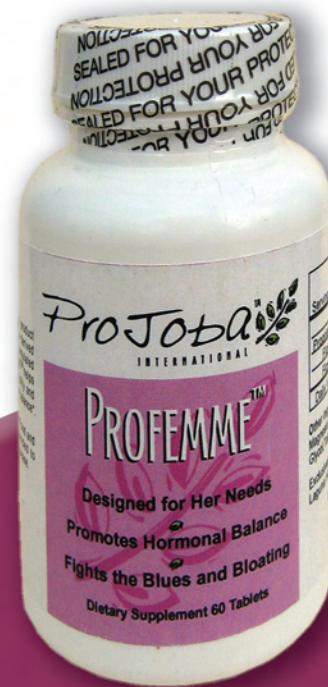

Caution:

For Adults only. Keep out of reach of children. Consult your health care professional before using if you are pregnant, nursing a baby or taking and prescription medications. In case of accidental overdose, call a physician or poison control center immediately.

Suggested Use:

Adults: As a dietary supplement, adults take two (2) to four (4) tablets daily as needed.
