

Hepol™ Testimonials

Hepol Supports Optimal Liver Health

"This is one of the greatest products I have ever used. Immediately after taking this product, I began to feel a big difference in my upper intestinal area and my breathing surgery in 1984 and ever since then my digestive track was off, until now this product is beginning to make me feel like I did prior to surgery. I ran out of it recently, and boy did I notice a difference! My digestion slowed down, and I was sluggish and tired again. No more running out of Hepol again! This is just a great product for anyone. "

Roger W, Lincoln, NE

"My wife, who is diabetic has tried Hepol and has found it to be an amazing product. Her health has improved dramatically. She is so excited that she has recommended it to her sisters who are also diabetics. She has energy and drive that she did not realize in years."

Ashkelon W, Wichita, KS

"I have had a problem with incontinence for a while, and often have to wake up several times per night to visit the bathroom, experiencing a very weak urine flow. I started taking Hepol to clean my liver. (I had been a smoker for 20 years and figured I could use a good cleansing.) Since I started the Hepol, I now sleep all night - no extra trips to the bathroom! My urine is clear and the flow is strong again, like when I was young. I feel great, am so much more alert and have an energy level I haven't had in years! "

Lynne K Owasso, OK

"I have to tell you about my dad. He has had poor liver function for years - resulting in a very yellow color to his skin. I started him on only two Hepol per day. Within a month his skin has normalized! He also feels better and has more energy. Thank you for a great product! "

Sandra L, MN

"When my daughter was 16 she had to take some heavy medications for six months due to an exposure to TB. She took Hepol often during those six months, and did not experience the side-effects and toxicity that we expected when being so heavily medicated. Upon finishing the medications, she began to get hives after eating almost any food. She then started taking Hepol again, and not only did the hives disappear completely, she had no further reactions! We are very grateful to have Hepol available to help us to naturally clear the liver of toxins. It is truly a godsend, and should be a part of everyone's regimen due to our polluted world. "

Carol G., Honolulu, HI

"Before I started taking Hepol, I was tired all the time, and needed to take afternoon naps just to get through the day. During my first week on Hepol, I felt a little sluggish, like I was detoxing. After that first week, I have seen some amazing changes. I have more energy than I have had in years and I no longer have to take naps in the afternoon! I feel 20 years younger, and am so happy I discovered this product - I had no idea how everyday toxins could affect my health so negatively. Thank you ProJoba. "

Sheilah S. Spring Valley, NY

"After listening to the wonderful product CD by Adrienne Gold, I decided to add Hepol to my daily regimen. The morning after I began taking Hepol, I woke up smelling like metal. I did not make the connection at that time that Hepol was quickly releasing heavy metals from my body, and I got worried that something was wrong. I called my good friend Willy, who said that he remembered hearing on one of the product trainings that this can happen if you have some sort of heavy metal poisoning. He encouraged me to contact Adrienne Gold, and I did. She asked me if I smoke or drink regularly, or use any prescription drugs. I answered no. Then she asked if I had ever been around pesticides, or have had a lot of dental work. I answered yes to both! (I have been in the lawn and garden industry for the last 30 years.) She recommended that I increase my dose of Hepol. This has helped me detox faster, and I am seeing my symptoms decrease significantly. Also, with my liver functioning better I am beginning to lose the weight I have been struggling with for years, with the help of ProJoba Slim Plus. Thank you ProJoba! "

Mary M. Kansas City, MO

"I have a medical condition that was treated with a variety of different prescriptions from various doctors. It caused my liver enzyme levels to become dangerously elevated and they stayed that way - even after discontinuing the use of the medications. It wasn't until I started using Hepol (6 per day) that my liver enzymes started dropping back to normal. After only two months on this product, my tests showed a significant decrease in enzyme levels. Now after three months, all but one reading is back to normal, and I am confident that that final enzyme reading will follow the others very soon! I can't tell you how thrilled and relieved I am to be able to improve my health - even when the doctors didn't know what to do! "
